

In the present era where evolution is fast-paced, accelerated as per several development initiatives by the government and investments across urbanization and industrialization expansion of the country, Geotechnical Engineering as the science that elucidates the mechanics of soils and rocks proves critically useful, including its applications for the development of mankind. For natural calamities such as earthquake, slope stability shifting, ongoing settlement, or other effects, the advanced calculations and testing provided by a geotech seems to be a boon saving humankind from significant damages. Conclusively, Geotechnical engineering efficiently helps prevent complications even before they happen.

Geotechnical engineering is a vital subject of civil engineering that's effectively used in planning infrastructures such as tunnels and bridges and other onshore and offshore constructions, beforehand analyzing the natural calamities risk. Geotechnical services help in the identification of issues and the avoidance of cost pressures in construction, redevelopment, and engineering projects. The geotechnical services market consists of sales of geotechnical services by entities (organizations, sole traders, and partnerships) that involve the study of materials present under the earth's

surface. As per Reportlinker study, the global geotechnical services market is expected to grow from \$1.92 billion in 2021 to \$2.10 billion in 2022 at a CAGR of 9.6 percent, and further become \$2.70 billion size by 2026, registering a CAGR of 6.4 percent. Continuous growth in urbanization, a breakthrough in green building materials, rising investments in infrastructural developments, essentially in developing countries, and the relevance of geotechnical services in planning & lowering the risk associated with project development and long-term investment is expected to result in the expansion of Geotechnical services market within the forecast period. There are many adept Geotechnical Service Providers in India offering their quality services in the market.

Industry Outlook in this issue presents a list of 'Top 10 Geotechnical Service Providers - 2022' who have leveraged their extensive industry experience in offering high quality Geotechnical Services in the industry. The following list has been prepared after being closely scrutinized by a distinguished panel of judges including CXOs, analysts, and our editorial board. We recognize their valuable contribution to the ever expanding and competitive market and their ability to sustain themselves and emerge as top contestants through their reliable services.

TOP 10 GEOTECHNICAL SERVICE PROVIDERS - 2022

COMPANY	MANAGEMENT	DESCRIPTION
Amruta Group Pune amrutawater.com	M. P. Reddy CEO & Head - Business	Enables technology driven rainwater harvesting solutions while possessing a distinct position in the market as groundwater surveyor
Arts Geotech & Infra Consultant Ghaziabad artsgeotech.com	Ratinder Kumar Juneja Managing Director	The leading Geo-data specialist, supports clients in mitigating risks during the design, construction, and operation of their assets, both on land and at sea
Bodhi Technocrats Hyderabad, bodhitechnocrats.com	Ramesh Babu Majji Managing Director	Offers various geotechnical engineering services which include Geotechnical Investigations, Geotechnical Monitoring, Structural Monitoring, Laboratory Testing, Ground Improvement Techniques and more
Earthson Geotechnical Noida earthsongeo.com	Ram Bahadur Singh Director	A soil and geotechnical testing and investigation company, keep up with national and international quality standards in projects and fulfil the needs of the clients to the fullest
Fugro Mumbai fugro.com	Bibhu Nayak Country Manager	A Geo-data specialist, collecting and analyzing comprehensive information about the Earth and the structures built upon it and adopts integrated approach that incorporates acquisition and analysis of Geo-data and related advice
Geonyms Thiruvananthapuram geonyms.com	Sajulal G. MD	Established to provide accurate, reliable and fast turnaround time testing services to contractors who value integrity and honesty in the industry
Hi Tech Civil Test Lab Bhopal hitechciviltestlab.com	Rakesh Kumar Verma Managing Director	A leading testing laboratory in India, providing laboratory services in civil construction
Keller India Mumbai kellerindia.com	Hari Krishna Y, Managing Director	A firm renowned for providing solutions for a wide range of geotechnical challenges across the entire construction sector through single or a combination of various techniques
Sarathy Geotech Bangalore sarathygeotech.com	Dr. CR Parthasarathy Founder	A leading player and service provider of choice in the fields of Geophysics and Geotechniques for both offshore and onshore markets worldwide
Terraform Geotechnical Delhi terraformgeotech.com	Pradeep Kumar Divakaran Nair Owner	Provides technical consultancy for the selection of suitable methods and equipment, tools and accessories for Hydroelectric Tunneling & Mining Metro and high-speed rail construction projects
