

Terraform[®] Geotech

Solutions That Make a Tangible Difference

**Drilling | Grouting | Foundation | Geotechnical Investigation | Ground Engineering
Slope Stabilization | Dam Rehabilitation | Riverbeds | Shotcrete | Dredging**

Solutions That Make a Tangible Difference

The Company

Terraform Geotechnical Services Private Limited is a forward-looking company with a focused approach to provide global and innovative engineering solutions to the Indian market. Using cutting-edge technology with the highest standards available in the fields of geotechnical and foundation engineering, we provide turnkey solutions in tunnelling, mining, road construction, slope stabilization, dam rehabilitation, riverbeds, dredging and shotcrete.

In association with globally-recognized technology providers and market leaders in their respective fields, Terraform provides consultancy, customized solutions, standard and tailor-made equipment, tools, accessories and after-sales service support. We deliver long-term benefits to customers by combining the selection of equipment, accessories and services.

Our Competencies

Our team has an experience of over 25 years and global associates with more than 50 to 100 years of industry leading and industry shaping experience. We provide technical consultancy for the selection of suitable methods and equipment, tools and accessories for:

- Hydroelectric projects
- Mining projects
- High-speed rail projects
- Tunnelling projects
- Metro rail projects
- Dredging projects

We supply custom-made equipment in the fields of:

- Drilling & Grouting
- Foundation
- Geotechnical investigation
- Ground engineering
- Slope stabilization
- Dredging
- Dam rehabilitation
- Riverbeds
- Shotcrete

Equipment Supply And Consultancy

Terraform is specialized in the selection and supply of the customized equipment as well as standard multi-purpose equipment as per the project requirements.

Our Services

Terraform is committed to being a professional provider of comprehensive after-sales support and customer care, offering full product support and maintenance, integrated parts procurement, software solutions and professional training at our premises or on-site. We offer both theoretical and practical knowledge by undertaking AMCs by providing skilled engineers, technicians and operators.

OUR GLOBAL ASSOCIATES

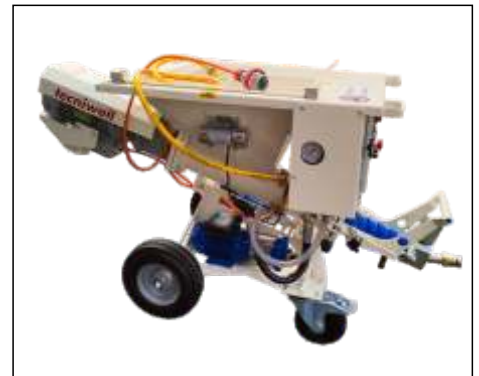

OUR VALUABLE CLIENTS

Tecniwell dominate the world market in the field of grouting equipment for ground stabilization.

Tecniwell product range includes:

- Grout mixing units
- High pressure triplex pumps
- Jet grouting units
- Injection & mixing units
- Screw Grout Pump
- Jet Grouting Accessories
- Dust silos
- Grouting Accessories

www.tecniwell.it

Massenza blends technical know-how and superior quality components to create a tough drilling rig for solid and reliable performance under the most difficult conditions.

Massenza product range includes:

- Drilling rigs for geotechnical investigation
- Drilling rigs for deep geothermal drilling
- Drilling rigs for mining & mineral exploration
- Drilling rigs for micropiling & anchoring
- Drilling rigs for water well drilling
- Mud pumps

www.massenzarigs.com

Dragflow manufactures submersible pumps and accessories for application in the fields of dredging, industry, mining, offshore and construction.

Dragflow product range includes:

- Electric pumps - heavy duty
- Hydraulic pumps - heavy duty
- Dredger - Radio/Wired control & Amphibious
- Pontoons & Accessories

www.dragflow.it

Wassara develops and manufactures energy efficient and high performance water powered drilling systems for application in ground engineering, tunneling, mining, dams and urban geo segment.

Wassara product range includes:

- Water powered hammers - 2" to 12"
- Drill bits and drill rods
- High pressure water pumps
- Explorer - navigator for borehole deviation surveying

www.wassara.com

Powerking

Non-Blast Rock Excavation Techniques

Powerking are the experts in rock breaking and concrete demolition machinery.

The advantages are:

Noise free, vibration free, dust free efficient operation, high productivity and safety.

Powerking product range includes:

- Super wedge
- Rock splitter
- Core drill
- Vibro ripper

www.powerkingmc.com

Compact Piling Rigs

GEAX provides versatile and flexible machines with high performance in constrained area.

Geax product range includes rigs for:

- Medium diameter piles
- CFA (Continuous flight auger)
- Soil mixing
- Diaphragm walls
- Casing oscillator

www.geax.it

Slope Stabilization Equipment

Rockdril has been working worldwide to provide reliable, easy to service, quality drilling equipment and accessories at affordable cost.

Rockdril product range includes:

- Airmobil series
- Ecomobil series
- Ecoskid series
- Meerkat series
- Hydromobil series
- MMD series
- TWD series

www.rockdrilasia.com

Pagani is specialized in the manufacturing of equipment for geotechnical investigation (CPT & DPT - DPSH, DPH, DPM).

Pagani product range includes:
Penetrometers Models with Data loggers

- TG 63-100
- TG 63-150
- TG 73-200

www.pagani-geotechnical.com

FLSmith is specialized in the design of heavy duty pumps for mining and construction industry.

FLSmith product range includes:

- High capacity centrifugal slurry pumps for construction industry
- Cyclones

www.flsmidth.com

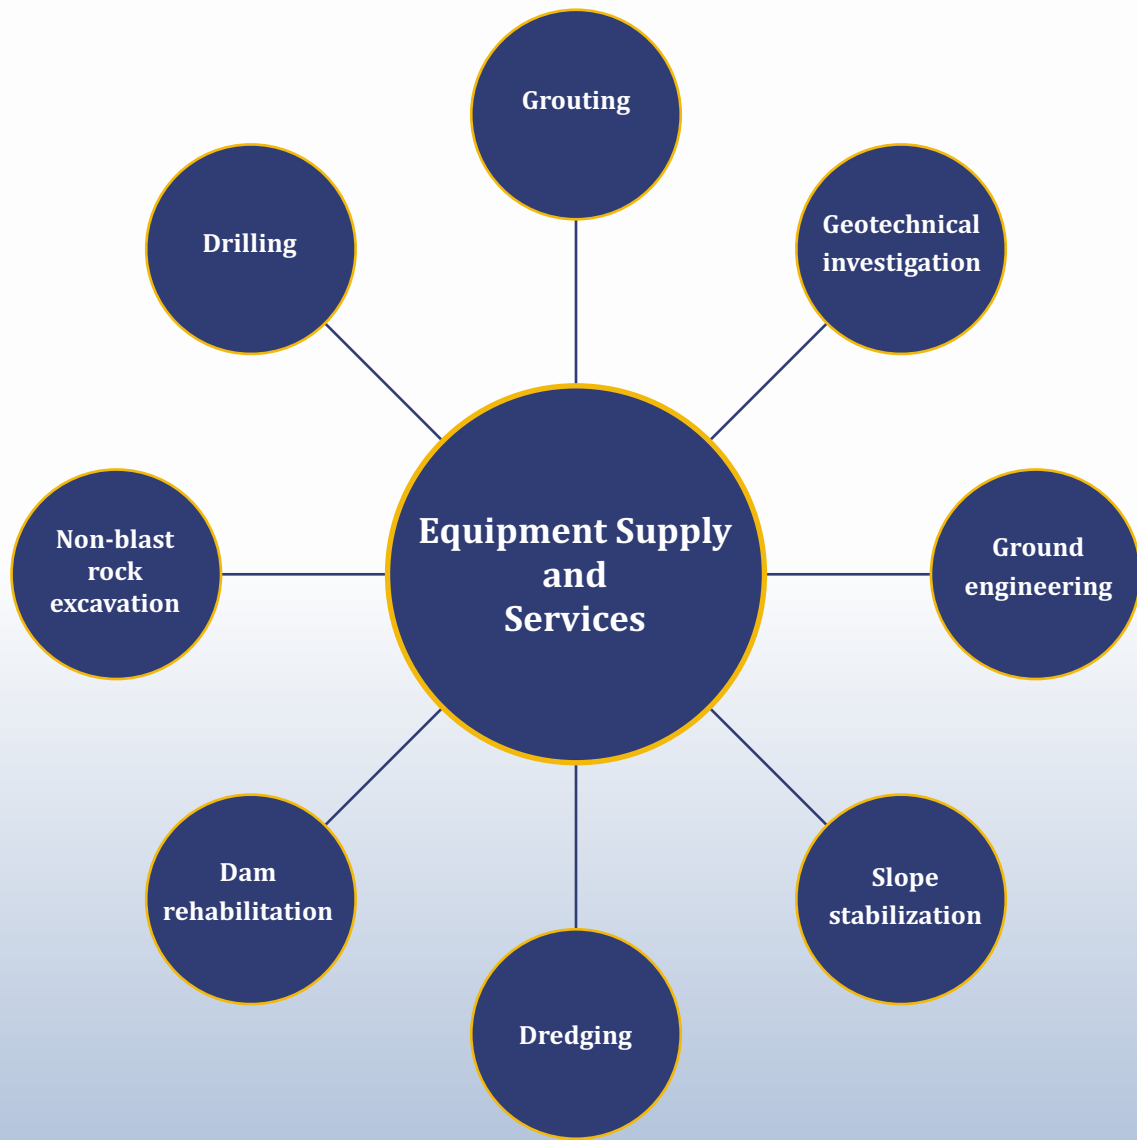

Arnabat is specialized for shotcrete and mortar spraying machine (electric / diesel powered).

Arnabat product range includes:

- Dry Mix Shotcrete pumps
- Wet Mix Shotcrete pumps-
Electric/Diesel
